

Salem Academy & College Archives
Personal Reflections of COVID-19 Project Questionnaire

The Salem Academy & College Archives has invited you to contribute to our project documenting the COVID-19 crisis. We have asked you to submit items that reflect your thoughts, feelings, and experiences concerning the physical changes that have been made in response to this pandemic. The format of these submissions has been left up to you, but again may include written reflections; audio or visual recordings; pertinent social media posts; photos; multimedia works of digital storytelling; dance or music performances; art; or perhaps through writing a letter to your future self, describing your situation and how you are experiencing this time.

In addition to this information, we also are interested to learn more about how you personally are managing this pandemic, and we appreciate you taking time to complete this questionnaire (all or part) which should be submitted with your documents.

Steps:

1. Complete all or part of the questionnaire as you feel appropriate
2. Save as a PDF to a local drive or device
3. Upload and submit the PDF with your other materials using the Salem Shares Google Form.

Questions:

1. How did you learn about Salem's decisions about COVID-19? What was your reaction?

2. Where are you living during the 2020 COVID-19 pandemic?

3. What is daily life like for you?

4. How are work and classes going for you?

5. What role has technology played in your world during this time (i.e. information sharing, communication, entertainment, etc.)

6. What else would you like people to know?
